Subject index

Acidic nitrate medium
Influence of temperature on the two-dimensional condensation of 4,4′-bipyridine and its cation radical over mercury in an acidic nitrate medium (Maestre et al.) 325
Acidic solution
Electrodeposition of PbS films from acidic solution (Takahashi et al.) 281
Adsorption
Explanatory note on the standard Gibbs energy of adsorption (Torrent, Sanz) 273
Adsorption behaviour
The differential capacity of some aliphatic alcohols at maximum coverage: influence of extrapolation procedures (Moncelli, Foresti) 293
Adsorption effects
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Adsorption effects of ClO_4^- ions
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Aliphatic alcohols
The differential capacity of some aliphatic alcohols at maximum coverage: influence of extrapolation procedures (Moncelli, Foresti) 293
Aromatic nitro compounds
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part 3. The reduction of 4-nitropyridine-*N*-oxide between $H_0 = -6$ and pH 9 (Lacasse et al.) 223
Aspergillus niger
Towards mediator design. II. Optimization of mediator global charge for the mediation of glucose oxidase of *Aspergillus niger* (Fraser et al.) 125
p-Benzoquinone
pH-Dependent processes at Nafion®-coated carbon-fiber microelectrodes (Kawagoe et al.) 193
Bicubic scheme
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part 3. The reduction of 4-nitropyridine-*N*-oxide between $H_0 = -6$ and pH 9 (Lacasse et al.) 223

Carbon-fiber
pH-Dependent processes at Nafion®-coated carbon-fiber microelectrodes (Kawagoe et al.) 193
Catalysis
Influence of acetonitrile, dimethylsulphoxide and lead on the electro-oxidation of small organic molecules: an on-line mass spectroscopy study (Wasmus, Vielstich) 175
Cation radical
Influence of temperature on the two-dimensional condensation of 4,4′-bipyridine and its cation radical over mercury in an acidic nitrate medium (Maestre et al.) 325
Cd(II)–nitrilotriacetic acid system
A differential pulse polarographic study of the cadmium(II)–nitrilotriacetic acid system: application of a simple and versatile simulation (Schmidt et al.) 115
Chemically polymerized films
Electrocatalytic properties of chemically polymerized films of cobalt, iron and manganese tetrakis(*o*-aminophenyl)porphyrins (Hayon et al.) 209
Chemisorption
The ionicity of halogens chemisorbed on mercury revisited (Rubio et al.) 105
ClO_4^- ions
Electrocatalytic reduction of ClO_4^- ions at

an electrodeposited Re layer (Bakos et al.) 241
Comproportionation
Pulsed electrolysis enhancement of electrochromism in viologen systems: influence of comproportionation reactions (Monk et al.) 301
Corrosion
Impedance spectroscopy and other electrochemical in-situ investigations of the phosphating process (Losch, Schultze) 39
Corrosion probe
Photoelectrochemical quartz crystal microgravimetry. Development and use as an in situ photoelectrode corrosion and stabilization probe (Myung et al.) 307

Dendrites
Experimental demonstration of the origin of interfacial rhythmicity in electrodeposition of zinc dendrites (Argoul, Kuhn) 81
Differential capacity
The differential capacity of some aliphatic alcohols at maximum coverage: influence of extrapolation procedures (Moncelli, Foresti) 293
Diffusion coefficients
Ionic transport in polyaniline film electrodes: an impedance study (Grzeszczuk, Żabińska-Olszak) 161
Dopamine
pH-Dependent processes at Nafion®-coated carbon-fiber microelectrodes (Kawagoe et al.) 193
Dynamical systems
Experimental demonstration of the origin of interfacial rhythmicity in electrodeposition of zinc dendrites (Argoul, Kuhn) 81

Electro-adsorption
Study of the kinetics of adsorption and electro-oxidation of MeOH on Pt(100) in an acid medium by programmed potential voltammetry (Papoutsis et al.) 141
Electrochemical impedance spectroscopy
Impedance spectroscopy and other electrochemical in-situ investigations of the phosphating process (Losch, Schultze) 39
Electrochromism
Pulsed electrolysis enhancement of electrochromism in viologen systems: influence of comproportionation reactions (Monk et al.) 301
Electrode
pH-Dependent processes at Nafion®-coated carbon-fiber microelectrodes (Kawagoe et al.) 193
Electrodeposition
Experimental demonstration of the origin of interfacial rhythmicity in electrodeposition of zinc dendrites (Argoul, Kuhn) 81
Electrodeposition of PbS films from acidic solution (Takahashi et al.) 281
Electrolyte solutions
Photoelectron injection into dilute electrolyte solutions. Part 1. Methodology (Kalugin et al.) 63
Electrolytic hydrogen termination
Influence of pH in electrolytic hydrogen termination of silicon (Bitzer et al.) 287
Electro-oxidation
Study of the kinetics of adsorption and electro-oxidation of MeOH on Pt(100) in an acid medium by programmed potential voltammetry (Papoutsis et al.) 141
Influence of acetonitrile, dimethylsulphoxide and lead on the electro-oxidation of small organic molecules: an on-line mass spectroscopy study (Wasmus, Vielstich) 175
Electroreduction
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part 3. The reduction of 4-nitropyridine-*N*-oxide between $H_0 = -6$ and pH 9 (Lacasse et al.) 223
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Etching
Influence of pH in electrolytic hydrogen termination of silicon (Bitzer et al.) 287

Frequency analysis
Frequency analysis of a temperature perturbation technique in electrochemistry. Part I. Theoretical aspects (Gabrielli et al.) 1
Fuel cells
Study of the kinetics of adsorption and electro-oxidation of MeOH on Pt(100) in an acid medium by programmed potential voltammetry (Papoutsis et al.) 141
Influence of acetonitrile, dimethylsulphoxide and lead on the electro-oxidation of small

organic molecules: an on-line mass spectroscopy study (Wasmus, Vielstich) 175

Gibbs energy
Explanatory note on the standard Gibbs energy of adsorption (Torrent, Sanz) 273
Glucose oxidase
Towards mediator design. II. Optimization of mediator global charge for the mediation of glucose oxidase of *Aspergillus niger* (Fraser et al.) 125

Halogens
The ionicity of halogens chemisorbed on mercury revisited (Rubio et al.) 105

Impedance spectra
Ionic transport in polyaniline film electrodes: an impedance study (Grzeszczuk, Żabińska-Olszak) 161
Interface
Experimental demonstration of the origin of interfacial rhythmicity in electrodeposition of zinc dendrites (Argoul, Kuhn) 81
Ionic transport
Ionic transport in polyaniline film electrodes: an impedance study (Grzeszczuk, Żabińska-Olszak) 161

Lead sulfur
Electrodeposition of PbS films from acidic solution (Takahashi et al.) 281

Mass spectroscopy
Influence of acetonitrile, dimethylsulphoxide and lead on the electro-oxidation of small organic molecules: an on-line mass spectroscopy study (Wasmus, Vielstich) 175
Mathematical model
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part 3. The reduction of 4-nitropyridine-*N*-oxide between $H_0 = -6$ and pH 9 (Lacasse et al.) 223
The differential capacity of some aliphatic alcohols at maximum coverage: influence of extrapolation procedures (Moncelli, Foresti) 293
Maximum coverage
The differential capacity of some aliphatic alcohols at maximum coverage: influence of extrapolation procedures (Moncelli, Foresti) 293
Mediation
Towards mediator design. II. Optimization of mediator global charge for the mediation of glucose oxidase of *Aspergillus niger* (Fraser et al.) 125
Mercury
The ionicity of halogens chemisorbed on mercury revisited (Rubio et al.) 105
Influence of temperature on the two-dimensional condensation of 4,4′-bipyridine and its cation radical over mercury in an acidic nitrate medium (Maestre et al.) 325
Metalloporphyrins
Electrocatalytic properties of chemically polymerized films of cobalt, iron and manganese tetrakis(*o*-aminophenyl)porphyrins (Hayon et al.) 209
Methanol
Study of the kinetics of adsorption and electro-oxidation of MeOH on Pt(100) in an acid medium by programmed potential voltammetry (Papoutsis et al.) 141
Methyl viologen
Pulsed electrolysis enhancement of electrochromism in viologen systems: influence of comproportionation reactions (Monk et al.) 301
Modified Au electrodes
Electrocatalytic reduction of nitrocompounds on gold UPD modified electrodes. Part 1. Reduction of nitrobenzene and 3-nitro-1,2,4-triazole on Au and Au/M(UPD) (M = Pb, Tl) (Kokkinidis et al.) 253

Nafion®
pH-Dependent processes at Nafion®-coated carbon-fiber microelectrodes (Kawagoe et al.) 193
Nitrite adsorption
An electrochemical study in perchloric acid medium of adlayers formed from irreversible adsorption of nitrite on Pt(100) (Rodes et al.) 315
Nitrogen oxides
An electrochemical study in perchloric acid medium of adlayers formed from irreversible adsorption of nitrite on Pt(100) (Rodes et al.) 315
4-Nitropyridine-*N*-oxide
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part 3. The reduction of 4-nitropyridine-*N*-oxide be-

tween $H_0 = -6$ and pH 9 (Lacasse et al.) 223
Numerical models
Modeling of amperometric biosensors by a finite-volume method (Bacha et al.) 21

Ohmic drop correction
A technique for series resistance measurement and ohmic drop correction under potentiostatic control (Popkirov) 97
Oscillations
Experimental demonstration of the origin of interfacial rhythmicity in electrodeposition of zinc dendrites (Argoul, Kuhn) 81

PbS films
Electrodeposition of PbS films from acidic solution (Takahashi et al.) 281
pH effects
Influence of pH in electrolytic hydrogen termination of silicon (Bitzer et al.) 287
Phosphating process
Impedance spectroscopy and other electrochemical in-situ investigations of the phosphating process (Losch, Schultze) 39
Photoelectrochemical quartz crystal microgravimetry
Photoelectrochemical quartz crystal microgravimetry. Development and use as an in situ photoelectrode corrosion and stabilization probe (Myung et al.) 307
Photoelectron injection
Photoelectron injection into dilute electrolyte solutions. Part 1. Methodology (Kalugin et al.) 63
Polyaniline film electrodes
Ionic transport in polyaniline film electrodes: an impedance study (Grzeszczuk, Żabińska-Olszak) 161
Potential-controlled experiments
A technique for series resistance measurement and ohmic drop correction under potentiostatic control (Popkirov) 97
Programmed potential voltammetry
Study of the kinetics of adsorption and electro-oxidation of MeOH on Pt(100) in an acid medium by programmed potential voltammetry (Papoutsis et al.) 141
Pulsed potential
Pulsed electrolysis enhancement of electrochromism in viologen systems: influence of comproportionation reactions (Monk et al.) 301
Pulse polarography
A differential pulse polarographic study of the cadmium(II)–nitrilotriacetic acid system: application of a simple and versatile simulation (Schmidt et al.) 115

Radiotracer studies
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Reaction kinetics
The reduction mechanism of aromatic nitro compounds in aqueous medium. Part 3. The reduction of 4-nitropyridine-*N*-oxide between $H_0 = -6$ and pH 9 (Lacasse et al.) 223
Re layer
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241
Electrocatalytic reduction of ClO_4^- ions at an electrodeposited Re layer (Bakos et al.) 241

Series resistance measurement
A technique for series resistance measurement and ohmic drop correction under potentiostatic control (Popkirov) 97
Silicon
Influence of pH in electrolytic hydrogen termination of silicon (Bitzer et al.) 287
Small organic molecules
Influence of acetonitrile, dimethylsulphoxide and lead on the electro-oxidation of small organic molecules: an on-line mass spectroscopy study (Wasmus, Vielstich) 175
Stabilization probe
Photoelectrochemical quartz crystal microgravimetry. Development and use as an in situ photoelectrode corrosion and stabilization probe (Myung et al.) 307
Standard Gibbs energy of adsorption
Explanatory note on the standard Gibbs energy of adsorption (Torrent, Sanz) 273
Structural effects
Ionic transport in polyaniline film electrodes: an impedance study (Grzeszczuk, Żabińska-Olszak) 161

Temperature
Influence of temperature on the two-dimensional condensation of 4,4′-bipyridine and its cation radical over mercury in an acidic nitrate medium (Maestre et al.) 325
Temperature perturbation
Frequency analysis of a temperature perturbation technique in electrochemistry. Part I. Theoretical aspects (Gabrielli et al.) 1
Tetrakis (*o*-aminophenyl) porphyrins
Electrocatalytic properties of chemically polymerized films of cobalt, iron and manganese tetrakis(*o*-aminophenyl)porphyrins (Hayon et al.) 209
Two-dimensional condensation
Influence of temperature on the two-dimensional condensation of 4,4′-bipyridine and its cation radical over mercury in an acidic nitrate medium (Maestre et al.) 325

Underpotential deposition
Electrocatalytic reduction of nitrocompounds on gold UPD modified electrodes. Part 1. Reduction of nitrobenzene and 3-nitro-1,2,4-triazole on Au and Au/M(UPD) (M = Pb, Tl) (Kokkinidis et al.) 253

Voltammetry
pH-Dependent processes at Nafion®-coated carbon-fiber microelectrodes (Kawagoe et al.) 193
